

Academic Honesty Policy

1. Purpose

To ensure SIBT takes a consistent, equitable and transparent approach to academic honesty among its staff and students.

2. Application

This policy applies to all students and staff at SIBT.

3. Policy Statement

Academic honesty is an integral part of the core values and principles outlined in the SIBT Student Code of Conduct. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim;
- all academic collaborations are acknowledged;
- academic work is not falsified in any way; and
- when the ideas of others are used, these ideas are acknowledged appropriately.

The key principles of this policy are that SIBT will:

1. expect all students to do their academic work honestly;
2. use a range of approaches to educate students in the practice of honest academic work ;
3. take consistent and equitable action to manage dishonest behaviours by:
 - a) communicating that any piece of academic work can be checked at any time using an appropriate process;
 - b) applying a common penalty framework across the institute;
 - c) applying appropriate, consistent procedures for detecting and investigating alleged academic dishonesty; and
 - d) providing and communicating the appeal process.
 - e) model academic honesty in practice (eg referencing sources)
 - f) embed academic honesty in learning so students understand what is expected of them.

Examples of dishonest behaviours are contained in the Glossary.

4. Principles of Academic Honesty

Throughout their studies at SIBT, students are expected to conduct themselves in an honest and ethical manner and in accordance with accepted standards outlined in the SIBT Student Code of Conduct. Behaviour contrary to these standards, including plagiarism and deception, are understood to be academic misconduct. The approach taken by SIBT to academic honesty is one that is appropriate to a learning organisation, with equity, respect, fairness and responsibility the core values that underpin the learning environment. If a student is found to have breached standards of SIBT Student Code of Conduct they will be subject to penalties.

5. Promoting Academic Honesty

In fulfilling its commitment to promoting and maintaining the highest standards of academic integrity, SIBT will ensure that students are supported and encouraged to conduct themselves honestly. To support this:

- academic honesty is dealt with at every level from policy, through processes, to individual staff practices;
- academic expectations are explained to students during the orientation process;
- this policy is made available to all staff and students via the portal and reference to the policy is included in all Unit Outlines which are distributed and covered in the first week of class;
- discipline specific Academic Literacy units designed to develop appropriate academic communication skills and practices and to gain an increased understanding of the values that underpin academic culture are set as required units for all Diploma courses;
- plagiarism and collusion software is used for detection purposes;
- the importance of adhering to writing and referencing conventions is addressed by tutors/lecturers in conjunction with major written assessments;
- graduate capabilities or generic skills outcomes direct teaching and assessment and support teaching staff in educating students about effective communication, critical thinking, analysis and interpretation.
